

## Biographical Sketch – Casey J. Law

### Professional Preparation

University of Hawai‘i, Physics, B.S. with distinction, 1998  
Boston University, Astronomy, M.A., 2000  
Northwestern University, Astrophysics, Ph.D., 2007  
University of Amsterdam, Astrophysics, Postdoctoral Fellow, 2007 – 2009  
University of California at Berkeley, Astrophysics, Radio Astronomy Lab Fellow, 2009 – 2011

### Appointments

2011 – present: Assistant Project Scientist at UC Berkeley.  
2009 – 2011: Radio Astronomy Lab Postdoctoral Fellow at UC Berkeley.  
2006 – 2008: Postdoctoral Fellow at the University of Amsterdam.  
2002 – 2006: Graduate Research Assistant at Northwestern University.  
2000 – 2002: Astrophysicist at Harvard-Smithsonian Center for Astrophysics.  
1998 – 2000: Presidential University Graduate Fellow at Boston University.  
1997 – 1998: Hawai‘i Space Grant Fellow at Institute for Astronomy.

## Synergistic Activities

- **Open Software:** I have authored open software packages designed for real-time analysis of radio interferometric data streams (“rtpipe” and “realfast”) and contributed to general-purpose radio interferometry software (“miriad-python”, “sdmreader”). These packages are public and available on GitHub.
- **Authored Technical Memos:** I led commissioning programs for the study of polarimetry and transients at the Very Large Array, Allen Telescope Array, and the KAT-7 radio interferometers. My commissioning work at the Very Large Array made increased data throughput by a factor of 100 and made new observing modes possible for the first time. These efforts were published as technical memos (ATA memos at <http://log.hcro.org/content/ata-memo-series>; KAT-7 memos at <http://kat.ac.za/pmwiki/KATCommissioning>).
- **Prison University Project:** In 2010 I began serving as a math tutor for the Prison University Project at San Quentin State Prison (<http://www.prisonuniversityproject.org>). The goal of the project is to provide incarcerated people with access to an accredited college-level curriculum to prepare them for life after prison.
- **Science Outreach:** At the Univ. of Amsterdam and UC Berkeley, I participated in special public science outreach days and led publicity for the “Science@Cal” lecture series. As an undergraduate at the University of Hawai‘i, I helped organize the Hawai‘i Physics Olympics and created a volunteer tutoring program for introductory physics classes.
